

Privacy Policy – Phisher Chrome Extension

Effective Date: December 15, 2025

1. Introduction

Phisher (“we,” “our,” or “the Extension”) is a Chrome extension designed to detect phishing links. This Privacy Policy explains what information we collect, how it is used, and how we protect your privacy. By using Phisher, you agree to the practices described in this policy.

2. Information We Collect

- **URL Data:** When you scan a link, the extension sends the URL to our backend for phishing analysis.
 - **Extension Settings:** Preferences such as dark/light mode, whitelist/blacklist entries, and scan history are stored locally.
-

3. How We Use Your Information

- To provide phishing detection services.
 - To store user preferences and scan results.
 - To improve the extension and ensure accurate threat detection.
-

4. Data Sharing and Disclosure

- We do **not** sell, trade, or share personal information with third parties.
 - Only the URLs you scan are sent to our backend for analysis. No additional browsing data or personal data is collected.
-

5. Permissions Justification

- **activeTab:** Used to access the URL of the active tab for user-initiated scans.
 - **storage:** Used to save user preferences and scan history locally.
 - **notifications:** Used to alert users of detected phishing links.
 - **contextMenus:** Used to provide a right-click option for manual URL scanning.
 - **tabs:** Used to retrieve the active tab URL when a scan is initiated.
 - **host permissions:** Required to send URLs to our backend for phishing analysis.
-

6. Remote Code

The extension does **not** execute remote code. All code runs locally. The backend only processes URLs and returns results.

7. Security

We implement reasonable measures to protect the information transmitted to our backend and stored locally. However, no system is completely secure.

8. Changes to This Privacy Policy

We may update this policy occasionally. The **effective date** at the top will reflect the latest update.

9. Contact Us

For questions or concerns regarding this Privacy Policy, please contact.
